

Fytch - Promise

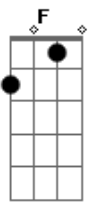

Tom: F

(forma dos acordes no tom de C)
Capostraste na 5ª casa

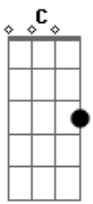

This road is long
And we've been here all along
Been here all along
And now that you're gone
It's all been left undone
Cause you're the only one, who stops
Time from ticking by (Time from ticking by)
I need you by my side
Don't let this world die in darkness
Don't let me drown in this silence
Never let go of your promise
Always remember your promise
Cause time is ticking by (Time is ticking by)
Another day to night
Don't let this world die in darkness
Don't let me drown in this silence
Always remember your promise

Never let go of your promise
(Am G F G)
Our end feels near
It's everything I feared
Everything we feared
I'll still be here
Minute, day and year
Cause I believe that we can't let
Time just pass us by (Time just pass us by)
I need you by my side
Don't let this world die in darkness
Don't let me drown in this silence
Never let go of your promise
Always remember your promise
Cause time is ticking by (Time is ticking by)
Another day to night
Don't let this world die in darkness
Don't let me drown in this silence
Always remember your promise
Never let go of your promise
[Final] Am G F G
