

# Gabriel Blondet - Easier

Tom: Eb

(forma dos acordes no tom de B )  
Capostrate na 4ª casa

Hey pretty lady, your moves they drive me crazy  
You know I'm always trying to be your type  
Don't know why it's hard to, get up and walk down to you  
Tell you you're beautiful I just can't lie

You make me say ooh  
I know, you know, we both know

That it could be easier, easier to love you  
If you just let me show you girl, no one's above you  
Don't care what anybody says, we'll make it happen  
Just need a little time and I promise you, baby  
One more day to know you better  
And I know for sure, that it could be easier

Ah, yeah it could be easier  
Ah, whoa

You keep on falling for those guys they don't know  
How to make you feel like a queen  
Cause you're so damn fine, yeah you're one of a kind  
Smiling back at me, can't remember how to speak

You make me say ooh

I know, you know, we both know

That it could be easier, easier to love you  
If you just let me show you girl, no one's above you  
Don't care what anybody says, we'll make it happen  
Just need a little time and I promise you, baby  
One more day to know you better  
And I know for sure, that it could be easier

Ah, yeah it could be easier  
Ah, whoa

A couple thousand ways we could  
Hold each other like we should  
Come closer now baby, one kiss and you'll save me  
The stars are lighting up for us  
Don't think about it way too much  
Just follow my lead, I'll make you believe

One more day to know you better  
And I know for sure

That it could be easier  
It could be you and me girl  
It don't have to be so complicated (yeah)  
It could be easier  
It could be you and me girl  
It could be you and me forever (if you leave with me)  
It could be easier
