

Gabrielle Aplin - A While

Tom: C

Intro 2x: C E Dm F
verse 1:

When it rains, yeah it rains
We can be so unforgiving, it leaves us unforgiven
We're the same, we never change

It's the reason we're together, just waiting for the weather to pass

Refrão:

I've been rolling my days away
Can't turn out the light that keeps me awake
I've been trying to sleep for a while
There'll be nothing left to talk about
And no one left to hear.
In a while,
We'll pour water on these ashes and
The walls will disappear
For a while
We've been caught in the cold light of day

Verse 2:

Lost our love, you put it down
Somewhere for safekeeping, so safe you don't remember
But it's okay, we'll make some more

It's you that i'll be needing, not these books that we've been reading too long

Refrão:

I've been rolling my days away
Can't turn out the light that keeps me awake
I've been trying to sleep for a while
There'll be nothing left to talk about
And no one left to hear.
In a while,
We'll pour water on these ashes and
The walls will disappear
For a while
We've been caught in the cold light of day

Bridge 4x: (G Bb F)

Refrão:

I've been rolling my days away
Can't turn out the light that keeps me awake
I've been trying to sleep, i've been trying to sleep
For a while
There'll be nothing left to talk about
And no one left to hear.
In a while,
We'll pour water on these ashes and
The walls will disappear
For a while
We've been caught in the cold light of day
