Gabrielle Aplin - Anybody Out There

Tom: G
Intro: (Guitar): E, D, B

Verse 1:
```
Em                           G
 You never told me why you had to leave
C                              D
 I always thought that you'd come back for me
Em                        G
 I'm tired of getting people's sympathy
C                       D
 I knew I'd make it back eventually
```

Pre-chorus:
```
Em                        C
 But I was spinning in the void
                   G
I was lost and paranoid
                      D
And I'm missing you now
```

Chorus:
```
                       Em
There might as well be space
                 G
Right outside my window
                   D
Is there anybody out there?
          Am
Anybody out there?
                   Em
I'm followed by your ghost
                 G
I'm stepping on your shadow
                   D
Is there anybody out there?
          Am
Anybody out there?
       Em                 G
I need you now, now, now ,now, now
       D                 Am
I need you now, now, now, now, now
```

Verse 2:
```
Em                       G
 I'm not saying it's for you to hear
C                          D
 I'm just tryna clear my atmosphere
Em                 G
 Taking off to try to work it out
C                                D
 The trouble's smaller when you're looking down
```

Pre-chorus:
```
Em                            C
 There's always silence in the void
                  G
And I kinda miss the noise
                 D
Of having you around
```

Chorus:
```
                       Em
There might as well be space
                 G
Right outside my window
                   D
Is there anybody out there?
          Am
```

Anybody out there?
```
                        Em
I'm followed by your ghost
                 G
I'm stepping on your shadow
                   D
Is there anybody out there?
          Am
Anybody out there?
       Em                 G
I need you now, now, now ,now, now
       D                 Am
I need you now, now, now, now, now
```

I'm followed by your ghost

I'm stepping on your shadow

Is there anybody out there?
          Am
Anybody out there?
                       Em
