

Gabrielle Aplin - Take Me Away

```
Tom: C
  G
Take me away
From the demons in my brain
       Em
Take me out into the world
Take me out into the day and let me find
     G C
My piece of mind
I was alone
I was taken with the tide
     Em
But I knew that I was home
When I looked into your eyes
       G C
And said I?m done
       G C
Just let me go
I am hollow
\mathbf{I} \text{ am numb}
I am staring down the barrel of this gun
I am always by myself
   Em
In a sea of self infliction
That I felt
My life is a line
Burning faster every time
Happy?s just a dead end street
I must turn around and leave
Once in a while
```

```
Once in a while
I bear far more cracks
Than the human eye can see
      Em
Is it fair to be perplexed F
And try explain what?s underneath
       G C
With my success
Cause there?s nothing left
I am tortured
by myself
I am haunted by
The fear of someone else
I am fading
I?m a ghost
 Fm
Disconnected from the ones
I love the most
Am G
You?ve seen my best
Turn to the worst
I?ve dragged you
Right down with me
Want to confess
But with the stress
I?m scared you?d leave me
I want you to know
But you can?t take it on your own
```
