

Gabrielle Aplin - The House We Never Built

Tom: F

Intro 2x: Am C Gm

verse 1:

I broke another glass
In the house we never built
The winter is always cold enough
Cold enough to kill
Just a little jasmine
Just a little salt in my wounds
What happens if I tell you
To tell the truth?

chorus:

Tell me you love her
And I'll be gone
Tell me you love her
And my heart was simply wrong
Just say the words and I'll turn around
I'll be gone without a sound
And bu-u-u-u-urn this house to the ground

verse 2:

It's like I never left
The house we never built
I broke another mirror
Now it's 21 years left
Just a little bad luck

Just a little salt in my wounds
Break it to me gently, gently!
chorus:
Tell me you love her
And I'll be gone
Tell me you love her
And my heart was simply wrong
Just say the words and I'll turn around
I'll be gone without a sound
And bu-u-u-u-urn this house to the ground

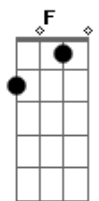

bridge:

I'll bu-u-u-u-urn it down
Feel the heat of my face
See it go up in flames
I'll bu-u-u-u-urn it down
Burn it in to the ground

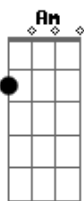

chorus: (played quietly)

Tell me you love her
And I'll be gone
Tell me you love her
And my heart was simply wrong
Just say the words and I'll turn around
I'll be gone without a sound
And bu-u-u-u-urn this house to the ground
