Gabrielle Aplin - Together

Tom: F

```
   F
We fit together, together so well
Dm
But when we fall apart
                                F
There's something missing I can tell
We fit together, together so well
Dm
But when we fall apart
                                F
There's something missing I can tell

Bb                       C
You call the sea the ocean
                        Bb
You say the kings alive
                         C
You live your life in motion
                      Bb
I like to take my time
                         C
And you don't like to talk about it
Bb
Why do we fight
  C
Why do we fight every night when

F
We fit together, together so well
Dm
But when we fall apart
                                F
There's something missing I can tell

We fit together, together so well
Dm
But when we fall apart
                                F
There's something missing I can tell

F
I'm not looking for redemption
I don't wanna see the light
All I want is your attention
                                Dm
All I want, all I want is love
F
I don't think you can deny me
Let's go smoke and make a fire

Bb  C  Bb  C

     Bb                  C
And you don't like to talk about it
Bb
Why do we fight
  C
Why do we fight every night when

F
We fit together, together so well
Dm
But when we fall apart
                                F
There's something missing I can tell

We fit together, together so well
Dm
But when we fall apart
                                F
There's something missing I can tell
```
