

## **Garbage - Not Your Kind People**

```
Tom: C
                                                             Wanting to be loved.
                                                             It doesn't take much.
Intro: riff, Am Am7 Am Am7 E E7, riff, Am Am7 Am Am7 E E7,
                                                              For someone to shut you down.
                                                             When you build a shell,
We are not your kind of people.
                                                             Build an army in your mind.
You seem kind of phoney.
                                                              You can't sit still.
Everything's a lie.
                                                             And you don't like hanging round the crowd.
                                                              They don't understand
We are not your kind of people.
Something in your makeup.
                                                             You dropped by as I was sleeping.
                                                                                Е
Don't see eye to eye.
                                                              You came to see the whole commotion.
                                                             And when I woke I started laughing.
We are not your kind of people.
                                                             The jokes on me for not believing.
Don't want to be like you.
        Е
Ever in our lives.
                                                             We are not your kind of people.
                                                                                G7
                                                             Speak a different language.
We are not your kind of people.
                                                             We see through your lies.
We fight when you start talking.
                                                             We are not your kind of people.
There's nothing but white noise
                                                                              Bb
    Am
                                                             Won't be cast as demons,
Ahhh... Ahhh... Ahhh...
       Αm
               Bh
                                                             Creatures you despise.
Ahhh... Ahhh... Ahhh...
                                                             We are extraordinary people.
              F
        Bb
                                                                    G
                                                                                  Bb
        Bb
                                                             We are extraordinary people.
        Bb
           E7
                                                                     G
                                                             We are extraordinary people.
                                                             C G
                                                                             Bb
                                                                                                  Am...
Running around trying to fit in,
                                                             We are extraordinary people.
```
