

Garth Brooks - Good Ride Cowboy

Tom: D

Verso 1:

From the hills of Kaycee, Wyoming
 Where life's wooly and wild
 Came a Navy brat in a cowboy hat
 And that Copenhagen smile
 And from buckin' broncos to honky tonks
 He always sang a cowboy song
 We were much too young, havin' too much fun
 As we all sang along

Refrão:

We sang Life's a Highway
 There's only one way you're gonna get through it
 When she starts to twist be more like Chris
 Pull your hat down tight and just LeDoux it!
 When that whistle blows and the crowd explodes

And them pickup men are at your side
 They tell you good ride cowboy, good ride

Verso 2: (Change key to E):

From gold buckles to gold records
 Once again he was spinnin' 'round
 Took the whole world on
 And he turned us on to that Western Underground
 And from Bareback Jack to This Cowboy's Hat
 His songs were stronger than his pain
 He would not slow down from town to town
 Like children running thru the rain

Refrão 2x

I bet he crossed that river Jordan
 With Saint Peter on the other side
 Singin' Good Ride Cowboy, Good Ride!
 Say Good Ride Cowboy, Good Ride!
