

Garth Brooks - I'd Rather Have Nothing

Tom: G

(Cold Start)

Verse 1

No Chord

Jumped in the truck and headed for Kansas

Morning found me in Port Aransas

Sipping on rum

In that warm Texas sun

I've never been good at keeping direction

And I believe schedules are one of life's worst infections

And I gotta be free

'Cause I'd rather have nothing

Than a whole lot of something I don't need

Chorus 1:

I'd rather have nothing

Than a whole lot of something

That don't fit the life that I lead

Material things and all that wealth brings

Just must be for some other breed

'Cause life ain't about the worries and doubts

That comes with the lust and the greed

And I'd rather have nothing

Than a whole lot of something I don't need

Solo:

C, G D, C, G

Verse 2:

I spent that evening in a tavern in town

With a bunch of my new friends my money brought 'round

And I told them 'bout you

And all the hell we'd been through

Everyone there had a similar story

Years full of tears from all the heartache and worry

And we all agreed

That we'd rather have nothing

Than a whole lot of something we don't need

Chorus 2:

I'd rather have nothing

Than a whole lot of something

That don't fit the life that I lead

Commitments and strings and all that love brings

Just must be for some other breed

'Cause life ain't about the worries and doubts

That comes with the lust and the greed

And I'd rather have nothing

Than a whole lot of something I don't need

Yeah Yeah

Oh, I'd rather have nothing

Than a whole lot of something I don't need
