

Tom: F

Garth Brooks - More than a Memory

```
Drinking more than you ever drank
People say she's only in my head
                                                                and sinking down lower than you ever sank
It's gonna take time but I'll forget
                                                               When you find yourself falling down upon your knees
They say I need to get on with my life
                                                               Praying to God, begging him please
What they don't realize
                                                               That's when she's more than a memory
Is when you're dialing six numbers just to hang up the phone
                                                                                  She's more...
                                                                         Bb
Driving cross town just to see if she's home
                                                                She's more...
Waking a friend in the dead of night
                                                               Cause when you're dialing her number just to hang up the phone
just to hear him say it's gonna be alright
                                                               Driving cross town just to see if she's home
When your finding things to do not to fall asleep
                                                               Waking a friend in the dead of night
Cause you know she'll be there in your dreams
                                                                just to hear him say it's gonna be alright
That's when she's more than a memory
                                                               When your finding things to do not to fall asleep
Took a match to everything she ever wrote
                                                               Cause you know she's waiting in your dreams
                                                       C
Watched her words go up in smoke
                                                               That's when she's more than a memory
Tore all the pictures off the wall
                                                               C,G,Am,F
That ain't helping me at all
                                                                F7M
                                                                                                             G
                                                               People say she's only in my head
Cause when you're talking out loud and nobody's there
                                                               It's gonna take time but I'll forget
You look like heck and you just don't care
                                                               End on F
Acordes
```
