

Garth Brooks - That Summer

Tom: G

G
Em
 1. I went to work for her that summer, a teenage kid so far from home,
C
 she was a lonely widow woman, hell bent to make it on her own.
G
 We were a thousands miles from nowhere,
Em
 wheat fields as far as I could see,
C - **D**
 both needing something from eachother,
G
 not knowing yet what that might be.

Em
 2. Till she came to me one evening, hot cup of coffee and a smile,
C
D
 in a dress that I was certain she hadn't worn in quite a while.
G
 There was a difference in her laughter,
Em
 there was a softness in her eyes,
C - **D**

G
 and on the air there was a hunger, even a boy could recognize.
D - **C**
 She had a need to feel the thunder,
G
 to chase the lightning from the sky,
C

D
 to watch the storm and all it's wonders raging in her lovers eyes.
Em - **D-C**
G
 She had to ride the heat of passion, like a comet

burning bright,
C **D**
 rushing headlong in the wind, out where only dreams have been,
G - **C** - **G**
 burning both ends of the night.

G
 3. That summer wind was all around me,
Em
 nothing between us but the night,
C
 and when I told her that I'd never,
D
 she softly whispered, "That's alright!"
G

Em
 And then I watched her hands of leather turn to velvet in a touch,
C - **D**
 there's never been another summer,
G
 when I have ever learned so much. - **C** - **D** -

G
 4. I often think about that summer,
Em
 the sweat, the moonlight and the lace,
C **D**
 and I have rarely held another, when I haven't seen her face.

G
 And everytime I pass a wheat field,
Em
 and watch it dancing in the wind,
C
 although I know it isn't real,
D **G**
 I just can't help but feel her hungry arms again.

REFRAIN
C
D
 rushing headlong in the wind, out where only dreams have been,
G - **C** - **D** - **G**
 burning both ends of the night.
