

## **Gavin James - Put You Back Together**

```
Tom: Db
          G G Em7 C
I slept off, baby i didn't know enough
                  Em7
Some things are better left unsaid, but i've not said enough
G G Em7 C
                         G
All i know is we shouldn't let this go
         Em7
We'll be forever tripping over every thing we've got
    A7
                  C
But i want you and i want you to know
If this house burns to the ground into ashes
     G G
We will hold it together
We will hold it together
If this world starts to break your heart into pieces
               G
I will make you feel better and try to put you back together
( Em7 G G C G C Em7 C G )
        G Em7
                     C
It's always on the table, so tell me if you're able
          Em7
To see me like i see you every time you wake up
      G G Em7
Well this is the bed we made
I know it's a little strange
                 Em7
To give me all your aches and pains
And i'll do the same
```

```
If this house burns to the ground into ashes
        G
             G
We will hold it together
We will hold it together
If this world starts to break your heart into pieces
I will make you feel better and try to put you back together
Α7
I, i, i wonder
         Em7
If you're walking down all the same lanes
I know it's not the easy way to go
But i know
 G G Em7
And if this house burns to the ground into ashes
We will hold it together
We will hold it together
And if this world starts to break your heart into pieces
I will make you feel better and try to put you back together
                          Α7
I'll try to put you back together
Try to put you back together
 Em7 G G C G C Em7 C G
```
