[Primeira Parte]

I remember that day I knocked at your door
 I could hear my favorite song
 I thought "oh I can't believe we never met before"
 And you were right here all along
 We got so much to talk about
 All those lights and sound
 Are you feeling it as I am?
 Babe this could get so wrong and I kind of like it how
 You better come to me and say

[Refrão]

And let it all wash out on me
 To get you on your feet again
 Seems like I'm a rolling wave
 I'll take you back to the water now
 So you can see what I cannot say

[Solo] ^{Em} ^G ^C ^G

[Segunda Parte]

Shine all your light babe
 And bring it next to me
 I think that nobody else could ever understand
 How this was meant for you and me
 And I cannot give up babe
 I kind off like just what it seems
 I can see it in your face my words won't bring it out
 Can you just show me what it means?

[Refrão]

And let it all wash out on me
 To get you on your feet again
 Seems like I'm a rolling wave
 I'll take you back to the water now
 So you can see what I cannot say
