

General Public - Never You Done That

tom:

Intro:

[Primeira Parte]

Well who would've guessed?

Well I guess I should

The second night was just as good

By the end of the week we were living as one

Gone two years now we're still together

Day in and day out

For however long

It's the kind of love

That could last forever

Day in and day out

For however long

Each time we kiss you're the perfect stranger

So me say

Don't never you go

Too far away from me girl (Never you done that)

Don't never you go too far away

Don't even think of saying it

[Refrão]

Don't never you go

Too far away from me girl (Never you done that)

Don't never you mention certain words about

No no

Never you done that

Take another stab

Try another play

Maybe a little drink will take the edge off

Trying not to slip

Trying to get a grip

But each time we kiss you're the perfect stranger

[Segunda Parte]

So me say

Don't never you go

Too far away from me girl (Never you done that)

Don't never you mention certain words about

No no

Never you done that

Never you done that

(C G)

[Terceira Parte]

Tired all day

Can't sleep at night

Out of control since

You've been in my sights

Day in day out

It's such a fright

Till you hold me close

And say that it's alright

(Don't never you go

Too far away from me girl)

Never you mention certain words about

No no

Never you done that

Never you done that

(C D Bm C)

[Quarta Parte]

Well who would've guessed?

Well I guess I might

Another cheerless restless night

Another day gone none too bright

Gone two years do you still remember?

That all the while my mouth was saying "Go"

My heart was screaming no no no

Turn around and look at me

You'll find me on my knees

Saying please please

[Refrão]

Don't never you go

Too far away from me girl (Never you done that)

Don't never you go too far away

Don't even think of saying it

D

Don't never you go

Bm

Don't never you go far

C

No never you done that

Never you mention certain words about

D Bm C

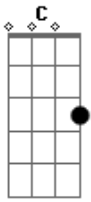

No no no no no no no no no no

Never you done that

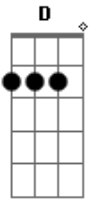

Never you done that

[Final] C
