```
F / / / Gm / / / / F / / /
                                                                           Now don't let me wait too long
    How I love you baby so don't let me wait too long
                                                                 Till you're here by my side
    How I love you baby so don't let me wait too long
                                                                 Now only you know how to dry up all of those tears that
    How I miss you baby so don't let me wait too long
    How I miss you baby so don't let me wait too long
                                                                 Here with your love

                                                            above
    Now only you know how to dry up all of those tears that
                                                                 You know it's you that I love
                                                                 F / / / Gm
