

George Harrison - Living In The Material World

Tom: F

I'm living in the material world, living in the material world.

Can't say what I'm doing here, but I hope to see much clearer After living in the material world.

I got born in the material world. Getting worn out in the material

world. Use my body like a car, taking me both near and far. Met my

friends all in the material world.

Met them all in the material world, John and Paul here in the material

world. Though we started out quite poor we got "Richie" on a tour. Got

caught up in the material world.

>From the spiritual sky- such sweet memories have I

from the material world.

To the spiritual sky- how I pray, yes I pray that I won't get lost or

go astray as

I'm fated in the material world, get frustrated in the material

world. Senses never gratified, only swelling like a tide that could

drown me in the material world.

While I'm living in the material world, not much "giving" in the

material world. Got a lot of work to do, try to get a message through

and get back out of this material world.

I'm living in the material world, living in the material world. I hope

to get out of this place by the LORD SRI KRSNA'S GRACE. My salvation

from the material world.
