

George Harrison - Your Love Is Forever

Tom: G

D
 Sublime in the summertime, warm and lazy
 These are perfect days like heavens about here,
G **A** **D**
 But unlike summer came and went - your love is forever,
Gm **G**
 I feel it and my heart knows that we share it together.
 Resigned to the winter times cold and dreary

Peering into fire flames, burning I know
 That unlike winter came and went - your love is forever
 I feel it and my heart knows that we share it together

D **A**
 I feel it and my heart knows you're the one
F **C**
 The guiding light in all your love shines on
Gm **G**
 The only lover worth it all - your love is forever.

Verse 1

Acordes
