

# George Harrison - Your Love Is Forever

Tom: G

**D**  
 Sublime in the summertime, warm and lazy  
 These are perfect days like heavens about here,  
**G** **A** **D**  
 But unlike summer came and went - your love is forever,  
**Gm** **G**  
 I feel it and my heart knows that we share it together.  
 Resigned to the winter times cold and dreary

Peering into fire flames, burning I know  
 That unlike winter came and went - your love is forever  
 I feel it and my heart knows that we share it together

**D** **A**  
 I feel it and my heart knows you're the one  
**F** **C**  
 The guiding light in all your love shines on  
**Gm** **G**  
 The only lover worth it all - your love is forever.

Verse 1

## Acordes
