

George Strait - I Got A Car

tom:

E A2 D Dbm B

[Verse 1]

She was leanin' on a rail in a cotton dress, summer tanned pretty

Little perfect mess

With a story that could only be anybody's guess

And I was thinkin' that I probably didn't stand a chance, but I

rolled up my sleeves, walked up and I said

Hey no, I don't know you, but I'd kinda like a shot

She said, I saw you comin' over, I already thought it over and

Ok, so now what

[Chorus]

And I said, well I got a car, she said, there's something at least

It's a start, I said it's better than nothing I ain't in no hurry but I'm ready when you are

And she said, where do you think all this is goin', I said, there

Ain't no way of knowin'

I guess I hadn't thought it through that far

But I got a car

[Verse 2]

So, we let the wheels turn and the windows down, we let ourselves

Go all the way through town

She never said stop and I never asked her why

We drove into the night, when outta nowhere, she said, I'd give

Anything to never go back there

And I kinda wish this day would never end

She said, I could use a change but I don't even know where to

A2 B
Begin

[Chorus]

And I said, well I got a car, she said, there's something at least

It's a start, I said it's better than nothing

I ain't in no hurry but I'm ready when you are

And she said, where do you think all this is goin', I said, there

Ain't no way of knowin'

I really hadn't thought it through that far

And I can't promise you the moon and stars

But I got a car

B E 3x

[Bridge]

We got lost in the miles, lost track of the days

'Til we, finally found a stoppin' place

When the doctor's said, you know what's on the way?

And we found ourselves in a little white house

One, Sunday morning rain pourin' down

She said, I think it's time But all the lines are out

And her eyes teared up and she said What are we gonna do now?

[Final chorus]

And I said, well I got a car She said, there's something

You think it'll start? I said it's already runnin'

Got your things in the back and I'm ready when you are

She said, are you sure it'll get us where we're goin'?

I said, if there's one thing I know girl

It's gotten us this far

And I don't mean to hurry but I'm ready when you are
