

Gerard Way - Brother

tom:
 Does anyone have the time to bring me down?
 And can I sleep all night long to the drums of the city rain?
 Just make it up-
 Cuz I'm awake all night long to the drums of the city rain
 And brother if you have the chance to pick me up?
 And can I sleep on your couch to the pound of the ache and pain?
 In my head- cuz I'm awake all night long to the drums of the city rain
 The lights we chase
 The nights we steal
 The things that we take- to make us feel this
 I can't go back
 Don't think I will
 I won't sleep tonight as long as I still-
 Hear the drums of the city rain
 Does anyone have the guts to shut me up?
 Cuz I believe, that every night
 There's a chance we can walk away
 So hold on tight-
 Because I won't wait too long, in the drums of the beating rain
 Cuz the nights don't last
 And we leave alone
 Will you drive me back?
 Can you take me home?
 The lights we chase
 The nights we steal
 The things that we take- to make us feel this

I can't go back
 Don't think I will
 I won't sleep tonight as long as I still-
 Hear the drums of the city rain
 Faces I don't know
 I am tired in the glow
 Of the freezing club
 Keep me breathing don't make the lights come back
 Can you take me home?
 We all need this when we leave alone
 Remember when you and I would make things up?
 So many nights, just take me down to the place we would hear them play
 I miss that sound
 Cuz now we don't sing so loud
 To the drums of the city rain
 The lights we chase
 The nights we steal
 The things that we take- to make us feel this
 I can't go back
 Don't think I will
 I won't sleep tonight as long as I still-
 Hear the drums of the city rain
 Like strangers laugh and like subways feel
 Things I'm trying to break
 Oh, just wait until this is all we have- to keep us ill
 I won't breathe tonight as long as I still hear the drums of the city rain
