

Geri Halliwell - Let Me Love You More

 Intro: (Abm E B Gb)

It's when I look at you
 That I'm suddenly alive
 And it all makes sense
 When it feels so beautiful
 Completely natural
 Well it's love I guess
 This is the closest thing
 I've imagined it to be
 With one kiss, one touch, I'm in heaven
 We can make it last baby

Feel my love tonight
 Knowing it's not goodbye
 Leaving my heart at the door (heart at the door)
 Keep it warm and true
 Giving it all to you
 I'm coming back for more

So let me love you more
 It's when you look at me
 That I feel like I'm at home
 And it all works out

It's my own miracle
 So free and wonderful
 It's what it's all about

This is the closest thing
 I've imagined it to be
 With one kiss, one touch, I'm in heaven

We can make it last baby
 Feel my love tonight
 Knowing it's not goodbye
 Leaving my heart at the door (heart at the door)
 Keep it warm and true
 Giving it all to you
 I'm coming back for more (So let me love you more)

Feel my love tonight
 Knowing it's not goodbye
 Leaving my heart at the door (heart at the door)
 Keep it warm and true
 Giving it all to you
 I'm coming back for more

Why is it so confusing
 I always thought
 I couldn't love you anymore than I do

But I do
 Feel my love tonight
 Knowing it's not goodbye
 Leaving my heart at the door (heart at the door)
 Keep it warm and true
 Giving it all to you
 I'm coming back for more (So let me love you more)

Feel my love tonight
 Knowing it's not goodbye
 Leaving my heart at the door (heart at the door)
 Keep it warm and true
 Giving it all to you
 I'm coming back for more
 So let me love you more
