It's when I look at you  
 That I'm suddenly alive  
 And it all makes sense  
 When it feels so beautiful  
 Completely natural  
 Well it's love I guess  
 This is the closest thing  
 I've imagined it to be  
 With one kiss, one touch, I'm in heaven  
 We can make it last baby

Feel my love tonight  
 Knowing it's not goodbye  
 Leaving my heart at the door (heart at the door)  
 Keep it warm and true  
 Giving it all to you  
 I'm coming back for more

So let me love you more  
 It's when you look at me  
 That I feel like I'm at home  
 And it all works out

It's my own miracle  
 So free and wonderful  
 It's what it's all about

This is the closest thing  
 I've imagined it to be  
 With one kiss, one touch, I'm in heaven  
 We can make it last baby

We can make it last baby  
 Feel my love tonight  
 Knowing it's not goodbye  
 Leaving my heart at the door (heart at the door)  
 Keep it warm and true  
 Giving it all to you  
 I'm coming back for more (So let me love you more)

Feel my love tonight  
 Knowing it's not goodbye  
 Leaving my heart at the door (heart at the door)  
 Keep it warm and true  
 Giving it all to you  
 I'm coming back for more

Why is it so confusing  
 I always thought  
 I couldn't love you anymore than I do

But I do  
 Feel my love tonight  
 Knowing it's not goodbye  
 Leaving my heart at the door (heart at the door)  
 Keep it warm and true  
 Giving it all to you  
 I'm coming back for more (So let me love you more)

Feel my love tonight  
 Knowing it's not goodbye  
 Leaving my heart at the door (heart at the door)  
 Keep it warm and true  
 Giving it all to you  
 I'm coming back for more  
 So let me love you more
