

Geri Halliwell - Let Me Love You More

Intro: (Abm E B Gb)

It's when I look at you
That I'm suddenly alive
And it all makes sense
When it feels so beautiful
Completely natural
Well it's love I guess
This is the closest thing
I've imagined it to be
With one kiss, one touch, I'm in heaven
We can make it last baby

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more

So let me love you more
It's when you look at me
That I feel like I'm at home
And it all works out

It's my own miracle
So free and wonderful
It's what it's all about

This is the closest thing
I've imagined it to be
With one kiss, one touch, I'm in heaven

We can make it last baby
Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more (So let me love you more)

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more

Why is it so confusing
I always thought
I couldn't love you anymore than I do

But I do
Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more (So let me love you more)

Feel my love tonight
Knowing it's not goodbye
Leaving my heart at the door (heart at the door)
Keep it warm and true
Giving it all to you
I'm coming back for more
So let me love you more
