Ghosted - Get Some

```
When you call, when you call, when you call and I'm horny
                                                               Don't pretend, don't pretend, don't pretend like we're lovers
                                                               Like it's more than two strangers underneath the covers
I've been waiting, I've been waiting, I've been waiting on
                                                                                                   G
your body
                                                               When I'm here on my own, there's a part that I'm missing
Don't you know I've been dancing alone at the party?
                                                               I'll go blind if I don't get to see what you're giving
All my friends gettin' laid and I ain't found nobody
                                                               We can go back to your place
                                                               I swear I'll be gone in the morning
We can go back to your place
I swear I'll be gone in the morning

                                                                                 G
