 Intro: C

Fable and truth  
 Direct me to someone who gives me the juice and new rules  
 Someone to tell me we're not born to be mules in this  
 Everything, it contradicts

Hedges of prayer  
 'Cause you believe, doesn't mean that it's there, it's so rare  
 It's so rare that somebody'd look out for  
 You (look out for you, look out for you)  
 Thoughts and prayers was all they'd do  
 (They'd do, they'd do, they'd do, they'd do)

When I lifted her urn  
 Divinity says: Destiny can't be earned or returned  
 I feel, when I question, my skin starts to burn  
 Why does my skin start to burn?

Ah-ah, capital loss  
 Love was the law and religion was taught, I'm not bought  
 I feel, when we argue, our skin starts to rot  
 Our skin starts to rot

Oh, oh  
 Oh, oh

So share me your plan  
 If I implore you, could I be your lamb? Understand  
 I look for the truth in the back of your hand and I  
 Look into the open sky

Stars blink like my sister's eyes  
 Stars blink like my sister's eyes  
 Stars blink like her eyes  
 Like her eyes

I dream of eternal life  
 I dream of eternal life
