Tom: C
                                                               (refrão)
                                                               (EGEA)
   (intro) E G E A
                                                               Another on bites the dust
                                                               Another one bites the dust
(verso 1)
                                                               And another one goes and
(EGEA)
                                                               another one gone
Let's go
                                                               Another one bites the dust
Steve walks warily down
                                                               Hey, I´m gonna get you too
the street
With his brim pulled way
                                                                                                (E)
down low
                                                               Another one bites the dust
Ain't no sound but the sound of
                                                               Another one bites the dust
his feet
                                                               Another one bites the dust, houuu ...
Machine guns ready to go
                                                               Another one bites the dust,
                                                               hey,hey
Are you ready, are you ready
                                                               Another one bites the dust,
for this
                                                                          (E G E A)
                                                               heee ...
Are you hanging on the edge of you seat
                                                               (verso 3)
Out of the doorway the bullets rip
                                                               Em
                                                               There are plenty of ways,
To the sound of the beat, yeah ...
                                                               you can hurt a man
                                                                                               Am
                                                               And bring him to the ground
(EGEA)
                                                                          Em
Another on bites the dust
                                                               You can beat him
Another one bites the dust
                                                               You can cheat him bad and
And another one goes and
                                                               You can treat him bad and
another one gone
                                                               leave him
Another one bites the dust
                                                               When he's down
Hey, I'm gonna get you too
                                 (EGEA)
                                                               But I'm ready, yes I'm ready for you
Another one bites the dust
                                                               I'm standing on my own two feet
(verso 2)
                                                               Out of the doorway the bullets rip
How do you think I'm going to get alone
                                                               Repeating to the sound of the beat
Without you when you are gone
                                                               (refrão)
You took me for everything that I had
                                                               (EGEA)
                                                               Oh, yeah, another one bites the dust
And kicket me out on my own
                                                               Another one bites the dust
                                                               And another one goes and
           C
Are you happy, are you sastisfied
                                                               another one gone
                                                               Another one bites the dust
How long can you stand the heat
                                                               Hey, I'm gonna get you too
Out of the doorway the bullets rip
                                                                    Gb
                                                               Another one bites the dust,
To the sound of the beat
                                                                          (Em Am )
                                                               heee ..
                                                               All right ...
