                                                                 Something about lonely nights and my lipstick on your face
                                                                 Just you and I
It's been a long time since I came around
                                                                 Something something about my cool Nebraska guy
It's been a long time but I'm back in town
                                                                 Yeah something about
But this time I'm not leaving without you
                                                                Baby you and I
                  D7
Just you and I, sharing our love together.
                                                                And I remember our first embrace,
I know in time we'll build the dreams we treasure,
                                                                The smile that was on your face,
                D
 We'll be all right,
                         just you and I,
                                                                                       D D7
                                                                 The promises that we made,
There's something, something about this place
Just you and, jus you and I
                                                                Oh and now, your love is my reward,
                                                                                        Em
