

# Glue Trip - Elbow Pain

Tom: **G**

(**Em7 D C**)

And I don't know where to go  
For all my life I've been so close

And I don't know where to go  
For all my life I've been so close

And I don't know where to go  
For all my life I've been so close

And I don't know where to go  
For all my life I've been so close

And I don't know where to go  
For all my life I've been so close

My love was always by my side  
And I don't know why  
You don't like to be with me  
In a sunny day

And I don't know why  
You don't call me right now

Don't know why

You don't like to be with me  
In a sunny day

My love was always by my side  
And I don't know why  
You don't like to be with me  
In a sunny day

And I don't know why  
You don't call me right now

Don't know why  
You don't like to be with me  
In a sunny day

My love was always by my side  
And I don't know why  
You don't like to be with me  
In a sunny day

And I don't know why  
You don't call me right now

Don't know why  
You don't like to be with me  
In a sunny day

My love was always by my side. x 4
