

# Gnarls Barkley - Going On

Tom: C

I?ve seen it with my own eyes  
 How we?re gettin? otherwise  
 Without the luxury of leavin?  
 The touch and feeling of free is  
 Untangible technically  
 Something you?ve got to believe in  
 Connect the cause and effect  
 One foot in front of the next  
 This is the start of a journey.  
 And my mind is already gone  
 And though there are other unknowns  
 Somehow this doesn?t concern me.  
 And you can stand right there if you want  
 But I?m going on  
 And I?m prepared to go it alone  
 I?m going on  
 To a place in the sun that?s nice and warm  
 I?m going on

And I?m sure they?ll have a place for you too oohohoo  
 Anyone that needs what they want, and doesn?t want what they need  
 I want nothing to do with  
 And to do what I want  
 And to do what I please  
 Is first of my to-do list  
 But every once in a while I think about her smile  
 One of the few things I do miss  
 But baby I?ve to go  
 Baby I?ve got to know  
 Baby I?ve got to prove it  
 And I?ll see you when you get there  
 But I?m going on  
 And I?m prepared to go it alone  
 I?m going on  
 May my love lift you up to the place you belong  
 I?m going on  
 And I promise I?ll be waiting for you oohohoo
