Chorus - Verse 1 - Chorus - Verse 2 - Chorus

Chorus:

I, I, I, I, I, I
Know how to transform
I can transform
I'll transform
I'm a transformer
I, I, I, I, I, I
Know how to transform
kindness

Verse 1:

I'm just being myself
Plus I gotta be me too
Silly of me to think that
I couldn't bring myself to be you
Ah but behold there is benevolence
Behind this but don't stare though
Be careful cause I'll kill you, with

I can transform
I'll transform
seek me
I'm a transformer

dying

That why I'm dressed quite neatly
Cause its easy and discretely they

And when they reach me and see me
they believe me completely
I'm a real live wire I ain't lying
If its between me and you I ain't

I can transform, I can transform,
I can transform without even tryin'

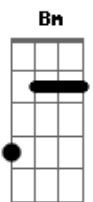

Verse 2:

Now I'm someone else
Now someone can be me too
Behold the beautiful and bold
everyday I wake up to be new
Oh but its simple
but they still can understand why
I think I can, I think I can,
I think I can or can I
I'm a microchip off the old block
You know not but I was a robot
And I sold "rock" and you would get
Fo' sho' shoot with a gold glock,
boy I rode pac
Something that you won't see again
What the hell might as well be a friend
I can transform, I'm a transformer
No telling who I will have to be again
