

# Gnash? - Sunset

tom:

C

The sunrise is starting anew

But the sunrise has nothing on you

You make my days feel bright

I know everything's alright

As long as you're right here by my side

But when you have to go

I get oh so sad, you know

Even when it's cloudy

I need you around me

Loneliness ain't in my cup of tea

I wish you were here

Now that I've made that clear

This sunset reminds me of you

It's purple, it's pink and it's blue

It's tangerine and all I need

You're all I wanna ever see

This sunset reminds me of you

Does it make you think of me too?
