

Go Brothers - Turn The Page, Change The Record

tom:
 Here we go again
 You and your dung face
 Saying bad thing about everything
 Negative fluids
 All over your brain
 Contaminating everyone around you

[Pré-Refrão]

Why don't you see yourself on a mirror
 And realize that is something wrong

[Refrão]

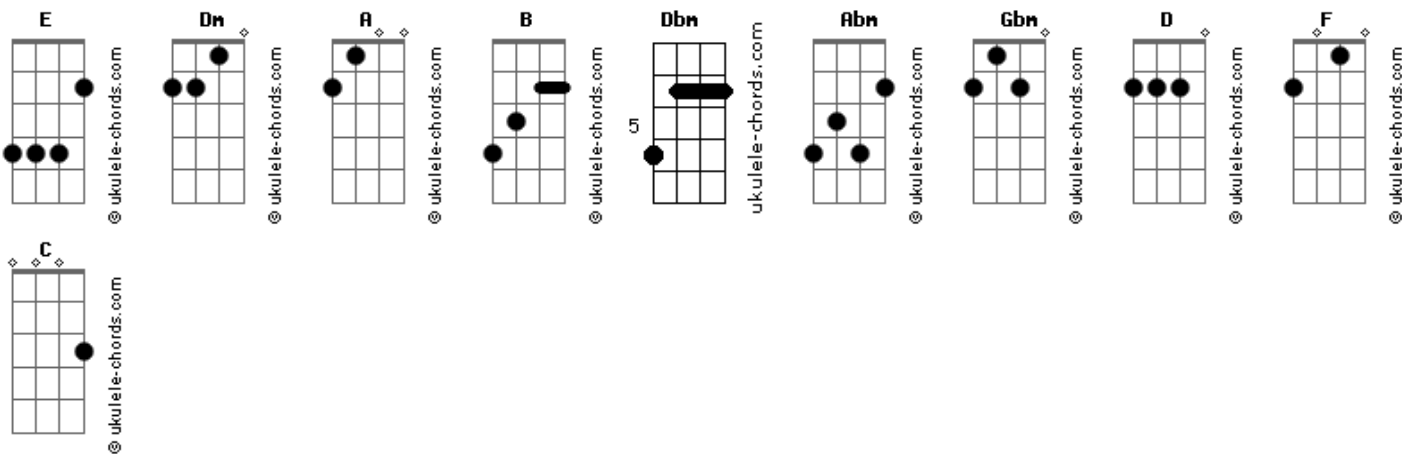

Turn the page, change the record
 Your conversation is getting too much boring
 Turn the page, change the record
 Your explanation is sad and anyone discarded

Don't lie yourself
 You know you're stupid
 And no one can endure you

Why can't you find some help
 A theraphyst could fix you inside

[Pré-Refrão]

Acordes

Why don't you see yourself on a mirror
 And realize that is something wrong

[Refrão]

Turn the page, change the record
 Your conversation is getting too much boring
 Turn the page, change the record
 Your explanation is sad and anyone discarded

Oh, come on!
 Why don't you just fuck it off!

[Solo]
 [Pré-Refrão]

Why don't you see yourself on a mirror
 And realize that is something wrong

[Refrão]

Turn the page, change the record
 Your conversation is getting too much boring
 Turn the page, change the record
 Your explanation is sad and anyone discarded

Turn the page
 Turn the page
 Turn the page
 Change the record
