

# Go Brothers - You Don't Know

tom:  
C

Yeah, you don't know, ah!

That nobody is better than you

You don't know, ah!

That I'm telling you the truth

You'd better listen to your reason

More rather than suffer before

Yeah, you don't care about

What comes next to you

You don't even care about

What's gonna happen to you

You'd better start worrying

Instead of limit the damage

Yeah, you don't know, ah!

The success came from hard work

You don't know, ah!

Nothing falls from the sky by chance

If you start now

Maybe you have the chance to get

Let's go boy!

[Solo]

Yeah, you can't imagine

How long it takes to reach your dreams

You have no idea

How difficult it's to make your goals

If you can fulfill your dreams

Tell us how do you feel

Yeah, you don't know, ah!

How to share your goals

You don't know, ah!

What is the best way to celebrate

Try to call friends

And see them happy for you

You don't know, ah!

How much study did I invest!

You don't know, ah!

How much hard work did I do!

How long does it take

To build your accomplishments

Singing!

[Solo]

Yeah, you don't know, ah!

That nobody is better than you

You don't know, ah!

That I'm telling you the truth

You'd better listen to your reason

More rather than suffer before

Yeah, you don't care about

What comes next to you

You don't even care about

What's gonna happen to you

You'd better start worrying

Instead of limit the damage

Yeah, you don't know, ah!

The success came from hard work

You don't know, ah!

Nothing falls from the sky by chance

If you start now

Maybe you have the chance to get
