

## **Gogol Bordello - Illumination**

```
Tom: C
  (intro 2x) Am Dm
(cada verso ele muda de ritimo de pausado pra constante)
(inicio ele começa no final do 2 intro)
(verse 1)
                Am
Don't believe them for a moment
     Dm
For a second do not believe my friend
When you are down them are not coming
With a helping hand
Of course this is no us and them
But them they do not think the same
It's them who do not think the same
It's them who do not think
(verse 2)
They never step on spiritual path
                            Dm
They paint their faces so differently from ours
And if you listen closely
That war it never stops
Αm
Dm
 that war it never stops
 that war
(verse 2)
Be them new romans
 ah...don't envy them my friend
Be their lives longer
               Е
 oh...their longer lives are spent
Without a love or faithful friend
All those things they have to rent
Dm
```

```
Yeah...all those things they have to rent
Dm
All those things
(verse 3)
But we who see our destiny
In sound of this same old punk song
Let rest originality...for sake of passing it around
          Dm
Illuminating...realization number one:
You are the only light there is
For yourself my friend
You are the only light there is
For yourself my friend
(solo 2x) Am Dm E
                      Dm
There'll be no saviors... any soon coming down
And anyway illuminations
never come from the crowned
          Dm
Illuminating...realization number one:
You are the only light there is
For yourself my friend
You are the only light there is
For yourself my friend
(ending/verse 5)
But we who see our destiny
In sound of this same old punk song
                    Dm
Let rest originality...for sake of passing it around
Illuminating...realization number one:
You are the only light there is
For yourself my friend
You are the only light there is
```

For yourself my friend

## **Acordes**
