Gogol Bordello - Last One Goes The Hope

```
Fm D
Unvisible barbed wire all along
Around the neck of my song
He Romale, I'm beat up
B7 Em
But going strong
Unstoppable fire of my tongue
And the path ahead that's long
Will get me at the end where I belong
Cause I've seen ship of fools
B7 Em
Sinking in the dunes
As I dragged my coffin on the rope
Them all look down at me
B7 Fm
But I got all the help I need
Cause the last one, last one goes the hope
G Am Em
Last one, last one goes the hope
Unseizable diamond from my sling
B7 Em
Still is searching for its ring
G D B7 Fm
In a city of ruins where no-one sings
But zombies and willful slaves
Living in their tiny private caves
```

```
Crooked hands, digging up their graves
Yeah I've seen ship of fools
B7 Em
Sinking in the dunes
G Am Em
As I dragged my coffin on the rope
Them all look down at me
But I got all the help I need
G Am Fm
Cause the last one, last one goes the hope
Last one, last one goes the hope
Dee dee dee...
Last one, last one goes the hope
Last one, last one goes the hope
He romale, no passarn
Hey chavale, non rien de rien
You see the thunderbird already starts to spin
He romale, no passarn
He chavale, non rien de rien
Hey, venceremos, 777 777777 77 7777771
