Well guys, here i am with another really cool tab, this one is a great song "Just like heaven", a cure cover. The other tab really really sucks... so thats why im tabbing this.

Tuning: Normal  
 Guitar: Any Stratocaster with 24 frets, you will need distortion and a wah/wah pedal

show me show me show me how you do that trick

the one that makes me scream she said

the one that makes me laugh she said

and threw her arms around my neck

show me how you do it

and i'll promise you, i'll promise that

i'll run away with you

i'll run away with you

SOLO 1: With wah/wah

sitting on the dizzy edge

p.m.....

i kissed her face and kissed her neck

p.m.....

i dreamed of all the different ways

p.m.....

i had to make her glow

why are you so far away, she said

why won't you ever know

that i'm in love with you

that i'm in love with you

you soft and only

you lost and lonely

you strange as angels

dancing in the deepest ocean

twisting in the water

you're just like a dream

SOLO 2: With wah/wah

you're just like a dream

the daylight whipped me into shape?

i must've been asleep for days

breathed her lips and threw her name

```

i opened up my eyes

i found myself alone, alone, alone

of al-read-y just seen

stole the only girl i loved

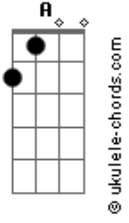

and drown her deep inside of me

you soft and only

you lost and lonely

you just like heaven
