

# Goldfinger - The Upper Hand

Tom: A

## Verse

Since you've been 15 you've been confused  
 At the age it's so hard to just be you  
 You got your friends, your records  
 The only thing that makes you feel whole  
 You're trying to figure it all out  
 Sometimes you realise the fight is oh so futile  
 When someone else is telling you you're wrong

## Chorus

You know your right  
 But no one seems to listen,  
 They say you're just a child,  
 So you turn and fight,  
 For me that is the only way  
 To step to what they say is the upper hand,  
 Don't let them take the upper hand  
 Don't let them take the upper hand

## Bridge Solo thing

You wanna go out and forget the day  
 Go out and just make your life seem real  
 Forget your mom and dad  
 Forget about your job, your home, your school  
 You take so much shit,  
 Your girl said it's over  
 You think about giving up  
 But don't you dare give up without a fight

You know you're right  
 But no one seems to listen,  
 They say you're just a child,  
 So you turn and fight,  
 For me that is the only way  
 To step to what they say is the upper hand,  
 Don't let them take the upper hand  
 Never let them take the upper hand  
 The upper hand

## Chords

Obs.: Second verse and Chorus are the same, listen for the rhythm.

It's the bonus track, in case you're interested!  
 Also, it uses the same chord twice (Gb), which I've labeled Gb and F#
