Good Charlotte - Meet My Maker

```
Tom: G                                                Em                        G
                                               D
                G   C   G   C                         I only wanted the life I'd read about and
Verse 1:  Lost and Broken Hopeless and lonely         dreamed
          G         C                                 Em                      G
            Smilin on the put side, but hurt beneath my skin    And now my life is an open book
          G                                           Em                      G
           My eyes are fading                           And now my heart is an open wound
          G                                           Em                    G
           My soul is bleeding
              C             G               D     D     And now my life is an open soul for all to see
            I'll try to make it seem O.K. but my faith is
wearing thin                                            CHORUS (and at I need someone to help me)
          G
Chorus:  So help heal these wounds,                   Em
                          C                            So you come along
          G            C              G               C
            Help me fill this soul, even though this is not   I push you away
your fault                                                            Em                        C
              C          Em     D     C      G          Then kick and scream for you too stay
            That I'm open and I'm bleeding, all over your
brand new rug.                                        CHORUS
                                      C                G                   C
D                                                      Need someone to help me sew them
                                                      G                   C
            And I need someone to help me sew them up.  Need someone to help me fill them
          Em              G                           G                 C         D (and if
Verse 2:  I only wanted a magazine                   you want too add an extra G at the end)
          Em                  G                        Need someone to help me close them up
           I only wanted a movie screen
```
