

# Gotthard - Don't Let Me Down

Tom: G

And I stare at the face in the mirror  
 I see a man, and there's hope in his eyes  
 This empty room's so lost inside  
 Chasing memories of the past  
 Ain't no place, ain't no road where I'm going  
 'Cause it's you all I need to show me the way  
 As time goes by, and you're not there  
 I miss you more and more every day  
 Don't let me down  
 For the time we spent together  
 Now I need you more than ever, baby  
 Don't let me down  
 We can change it for the better  
 if you're not there :||  
 Was it you, was it me, doesn't matter  
 Time built a wall so hard to climb  
 Oh I was blind, but now I see  
 I still hope for you to come my way  
 Yeah I'm begging you to stay  
 Don't let me down

For the time we spent together  
 Now I need you more than ever, baby  
 Don't let me down  
 We can change it for the better  
 All the world don't mean a thing  
 If you're not there  
 Uuh baby if you're not there  
 Without your love the sun won't shine again  
 Need you by my side to soothe the pain  
 Tell me all that we've been through was not in vain  
 Don't let me down  
 For the time we spent together  
 Now I need you more than ever, baby  
 Don't let me down  
 We can change it for the better  
 All the world don't mean a thing  
 If you're not there  
 If you're not there  
 All the world don't mean a thing  
 If you're not there
