

Grace VanderWaal - Talk Good

```
Intro: F Am Am G
          Am
                         Am
It sounded so much better in my mind, mind
F Am
                  Am
I guess I messed it up again this time, time, time
F Am
                   Am
There's something else that I wanted to say, say
F Am
                  Am
But my twisted tongue got in the way, way, way
0ooh
My mouth is moving without thinking
0ooh
My brain and mouth on different systems
F Am Am Why can't you see my side of things
                     Am
I've been thinking 'bout it ever since
I wish I said this, I wish I said that
But I kinda froze in my tracks
\boldsymbol{I} wish \boldsymbol{I} said this, \boldsymbol{I} wish \boldsymbol{I} said that
But I kinda had a panic attack
I wish I could talk good
I wish I could talk, I wish I could talk
I wish I could talk good
                         Am
          Αm
Rerun the conversation in my head, head
Think all of the things that I should have said instead
0ooh
My mouth is moving without thinking
Oooh
My brain and mouth on different systems
```

Acordes

```
Why can't you see my side of things
F Am Am (I've been thinking 'bout it ever since
I wish I said this, I wish I said that
But I kinda froze in my tracks
I wish I said this, I wish I said that
But I kinda had a panic attack
I wish I could talk good
I wish I could talk, I wish I could talk
I wish I could talk good
My words, my mind
all worth all your time
My words, my mind
  Am
Am G
all worth all your time
                                  Am
I don't wanna be a puppet game and caught on your line
 F Am
I come back to these words every time
I wish I said this, I wish I said that
   Am
But I kinda had a panic atack
I wish I said this, I wish I said that
But I kinda froze in my tracks
I wish it went the way it went in my head
But it kinda crushed and burned instead
  F Am
Why does it always end up like it is now
       F Am Am G
I could talk good
I wish I could talk, I wish I could talk
```

I wish I could talk good
