

Gracie Abrams - Full Machine

tom:

Intro: G C G C

I'm a rollercoaster

You're a dead-end street

But won't you stay for a while?

I wish that you'll never leave

I know why I know better

You're no guarantee

But if you asked me to run

Wait, I'd go easily

I almost lost it

I'll heal eventually

But faster if you're next to me, next to Me

I'm codependent

But tryin' hard not to be

I'm better when you're next to me

I'm a shameless caller

You're a full machine

But won't you answer tonight

And say somethin' nice to me?

And you don't have to mean it

You can lie to me

But if you asked me to run

Wait, I'd go easily

I almost lost it

I'll heal eventually

But faster if you're next to me, next to Me

I'm codependent

But tryin' hard not to be

I'm better when you're next to me, next to Me

Wait, I'd go easily

I almost lost it

I'll heal eventually

But faster if you're next to me, next to Me

I'm codependent

But tryin' hard not to be

I'm better when you're next to me, next to Me

Wait, I'd go easily

I almost lost it

I'll heal eventually

I'm better when you're next to me, next to Me, oh

Well, do you think we can talk?

'Cause I've been trying to tell you

How you're the one that I turn to, mmm

But I should probably stop

Instead of forcin' a breakthrough

It's just that I'll always choose you

I'm a forest fire

You're the kerosene

I had a life, yeah, before you

But now it's burnin'

I know I know better

But you're ignorin' me

Still, if you asked me to run

Wait, I'd go easily

I almost lost it

I'll heal eventually

But faster if you're next to me, next to Me

I'm codependent

But tryin' hard not to be

I'm better when you're next to me, next to Me

Well, do you think we can talk?

'Cause I've been trying to tell you

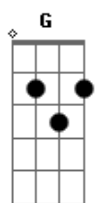

How you're the one that I turn to, mmm

But I should probably stop

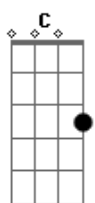

Instead of forcin' a breakthrough

It's just that I'll always choose you
