[Primeira Parte]
                   C
Look at me, I feel homesick
Want my dog in the door
And the light in the kitchen
From the fridge on the floor
                  С
And the faint overhearing
Of my mom on the phone
Through the walls of my bedroom
                        Am
Things that I shouldn't know
Think the bus might be broken
                       Am
?Cause the shocks never work
                  С
We're collectively hopin'
G
                   Am
That the drive will be short
          C
People 24/7
                 Am
It?s the best and a curse
All they do is remind me
                 Am F
That I'm still introverted

And I ended a friendship
G

Every minute I'm gone?

And what if my little brother
               Am
Thinks my leavin' was wrong?
Oh, oh
