-----

Intro: Gb  
Dreaming  
I am only dreaming  
Of another place and time  
Where my family's from

Singing  
I can hear them singing  
When the rain has washed away  
All these scattered dreams

Dying  
Everyone's reminded  
Hearts are washed in misery  
Drenched in gasoline

Laughter  
There is no more laughter  
Songs of yesterday  
Now live in the underground

Bridge

Db Gb Ab x12

Verse

Life before the lobotomy  
Christian sang the eulogy  
Sign my love a lost memory  
From the end of the century

Chorus

Well, it's enough to make you sick  
To cast a stone and throw a brick  
When the sky is falling down  
It burned your dreams into the ground

Verse

Christian's lesson is what he's been sold  
Remember to learn to forget  
Whiskey shots and cheap cigarettes

Chorus

Well I'm not stoned  
I'm just fucked up  
I got so high I can't stand up  
I'm not cursed 'cause I've been blessed  
I'm not in love 'cause I'm a mess

Middle 8

Like refugees  
We're lost like refugees  
Like refugees  
We're lost like refugees  
The brutality of reality  
Is the freedom that keeps me from

Outro
