

Green Day - Carpe Diem

Tom: Db

Intro: Db Gb Ab Db Db Ab Gb Db

Breaking in a sweat, like a bomb threat

Here's your silhouette fading out

Nothing left to lose, detonate the fuse

Another break in this blow out

Ain't it beautiful? So unusual?

Life's a guess and it's running out

Living a cliché, gonna seize the day

Bottle rockets to celebrate

Db Ab Db Ab

Carpe diem, a battle cry

Are we all too young to die?

Ask for reason and no reply

Are we all too young to die?

Making a living, making a killing

What's worth forgiving? A lie?

A blink of an eye, barely scraping by

Dominated by passer-bys

Ab Db Ab Db

Feeling out of luck, when the traffic's stuck

And you're feeling so left behind

Getting off a binge, get a second wind

Another promise to make a change

Got a broken wing, hear the angel sing

When the single is out of range

Ain't it strange?

Carpe diem, a battle cry

Are we all too young to die?

Ask for reason and no reply

Are we all too young to die?

Making a living, making a killing

What's worth forgiving? A lie?

Making a living, making a killing

What's worth forgiving? A lie?
