EADGBe

Verse 1:

G  
Staring out of my window  
E  
Watching the cars go rolling by  
C  
My friends are gone  
G D  
I've got nothing to do  
G  
So I sit here patiently  
E  
Watching the clock tick so slowly  
C  
Gotta get away  
A D  
Or my brains will explode

Chorus:

C G D  
Give me something to do to kill some time  
C G D  
Take me to that place that I call home  
C G D  
Take away the strains of being lonely  
C (hold) G (hold) D  
Take me to the tracks at Christie Road

Verse 2:

See the hills from afar  
Standing on my beat up car  
The sun went down and the night fills the sky  
Now I feel like me once again  
As the train comes rolling in  
Smoked my boredom gone  
Slapped my brains up so high

Chorus
