EADGBE

Verse 1:

G
Staring out of my window
E
Watching the cars go rolling by

My friends are gone
G D
I've got nothing to do
G
So I sit here patiently
E
Watching the clock tick so slowly
C
Gotta get away
A D
Or my brains will explode

Chorus:

C G D
Give me something to do to kill some time
C G D
Take me to that place that I call home
C G D
Take away the strains of being lonely
C (hold) G (hold) D
Take me to the tracks at Christie Road

Verse 2:

See the hills from afar
Standing on my beat up car
The sun went down and the night fills the sky
Now I feel like me once again
As the train comes rolling in
Smoked my boredom gone
Slapped my brains up so high
