

# Green Day - Life During Wartime

Tom: D  
Intro: A Dbm Bm D E

Verso  
Yeah, we say making changes starts  
With the little things you do  
Revolution begins at home  
But for most of us it ends there to

Refrão  
We're doing something  
We're making changes  
Like changing the kind of crap we buy  
We say it makes a difference  
But that's just another lie

Interlúdio  
A Dbm Bm D E

Verso  
It used to be and Us Them  
And You and Me  
And now we can't reach our full potential

Without a common enemy

Refrão  
A real war to fight against  
Instead of our petty disagreements  
But how can I rationalize  
My life during wartime, lie

quebra de ritmo 1  
D A G A

Quebra de ritmo 2  
A call to action and a reaction  
Taking our lives in our own hands  
Instead of sitting around and talking  
About the same old stupid bands

Refrão  
But war is going on right now  
And I'm not doing anything about it  
Without a crowd I'm not so loud  
I can't do anything by my self  
But that's just another lie
