

Green Day - Strange Days Are Here To Stay

tom:

E

[Primeira Parte]

We stumble down the avenue
 Like fairy dust, and ballyhoo
 They promised us forever
 But we got less

There's no such thing as promises
 Just secret codes from alphabets
 They promised us forever
 But we got less

[Pré-Refrão]

These are the best of times
 Twisted and borrowed times
 These are the loneliest of times

[Refrão]

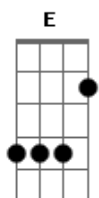

Strange days are here to stay
 Ever since Bowie died
 It hasn't been the same
 All the madmen going mental
 Grandma's on the fentanyl now
 Strange days are here to stay

[Segunda Parte]

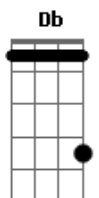

This is how the world will end
 When superheroes play pretend
 They promised us forever
 But we got less

It's the return of the blob
 And Jesus gonna quit his job
 He promised us forever
 But we got less

[Pré-Refrão]

These are the best of times
 Twisted and borrowed times
 These are the loneliest of times

[Refrão]

Strange days are here to stay
 Everyone is racist
 And the Uber's running late

I just lost my sense of humor
 Gen-z killing, baby boomer now
 Strange days are here to stay

[Ponte]

Lonely boy
 With a heart made of hate
 Baby Babylon
 And making guns made out of clay

[Base Solo] E Ab A E B

[Terceira Parte]

Are we in hell?
 Or is this just a fantasy?
 I can't see this ending well
 Now that it's too late

[Refrão]

Strange days are here to stay
 Ever since Bowie died
 It hasn't been the same
 All the madmen going mental
 Grandma's on the fentanyl now
 Strange days are here to stay
 Strange days are here to stay
 Strange days are here to stay
