

# Green Day - Suzie Chapstick

tom:

Intro: <sup>C</sup>  
Dm G C Am  
Dm G Am

Will I ever see your face again?

Not just photos from an Instagram

Will you say hello from across the street?

From a place and time we used to meet

Sometimes everything just grows apart

Broken pieces from a busted heart

Not even the drugs seem to work

Living in the shadows where we lurk

F G Em Am  
Outside my window, before the Sun comes up to shine

F G Em Am  
It's just another vacant, cold and lonely night

Dm G  
Do you remember the jokes we told?

Rumors from a long, long time ago

Did we get over our innocence?

Did we take the time to make amends?

Will you dedicate a song to me?

Do you want me to just go away

I just want to be your nobody

Is there any chance that I can stay?

F G Em Am  
Outside my window, there is nothing but a sky  
F G Em Am
